Summer Fun Ideas from Lancashire MIT Teaching and Learning Consultants

Dear Schools, Parents, Carers and Children,

Everybody seems to be ready for a break from 'home-learning'. As the summer holidays approach, we have been thinking about how we can support you in having some summer fun with your children whilst helping them to be ready to go back to school in September – without the pressure of 'formal' lessons.

We have put together a range of ideas for your children to enjoy. There are some ideas for keeping them reading and having fun with numbers – without any pressure. There are also some generic indoor and outdoor activities in addition to ideas along themes.

Some of the ideas have internet links. If these do not immediately work, you may need to copy and paste them into a browser. There are also some links to LovesReading4Kids where you can download free extracts of books. With these, you may need to create a login to the site (this is free) and then copy and paste the link into the address bar.

We have really enjoyed putting these together for you and hope they help you enjoy a lot of summer fun.

Yours faithfully,

Steph Johnson
Ian Richardson
Adele Thomson
